This publication is intended for use by commanders and their staffs, command surgeons, AHS planners, and Army Medical Department personnel and units. This publication addresses the casualty care aspects of the health service support mission under the sustainment warfighting function. It describes the various organizational designs for the units providing this support and doctrinal guidance on the employment of these organizations and their functional capabilities. The staffing and organizational structures and positions presented in this manual are established in tables of organization and equipment (TOEs). These tables were current at the time this manual was published. The organization of these units is subject to change in order to comply with manpower requirements criteria outlined in Army Regulation (AR)...
