### ***Reviews***

*This is basically the very best book we have go through until now. I have got read and i also am confident that i am going to gonna study once again again in the future. I am just very happy to inform you that this is basically the very best ebook we have read inside my own life and might be he very best publication for at any time.*

*(Angus Hickle)*

## DEPARTMENT OF CIVIL ENGINEERING (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Department of Civil Engineering Six years ago, in recognition of the tendency toward specialization, which is so marked in all branches of engineering, the course in Civil Engineering at the Institute was rearranged and essentially modified by the introduction of options in the fourth year. As important changes in the course and extensive additions to the equipment of the department have since been made, it seems now proper to publish a detailed statement of the progress and present condition of the department and of its means and methods of instruction. The educated engineer, whatever branch of the profession he may follow, is constantly called upon to make application of the principles of mathematics, mechanics, and physics, of the laws governing the stability of structures, the resistance of materials, or the flow of water, in dealing with problems involving the development of natural resources, the construction or improvement of channels of transportation, or the maintenance of the public health. These subjects must, therefore, be included in any sound course of instruction in Engineering. But the rapid development of the technical sciences and the specialization of the various departments of Civil Engineering have so enlarged its field as to make it impossible, in any course of four years, to cover adequately and thoroughly all branches of the profession, and have rendered it desirable that the student should be allowed some freedom of choice as to the particular line of work to be pursued in the application of these general principles. To meet this requirement, three options are offered to the students in the fourth year: first, one in which more attention than usual is devoted to Hydraulic...
